## Impact Highlight | **HAITI**

*Partner: Hands for Haiti*

Cilicourt receives Rise Against Hunger meals six times a week through our partner, Hands for Haiti. Cilicourt shares that the meals make him stronger, faster and more eager to learn. In the future, Cilicourt dreams of taking his education to the next step and going to a university to become a doctor.

**NOURISHING LIVES**

## Impact Highlight: **ZAMBIA**

Memory, a 15-year-old girl, lives in a rural area on the fringe of the capital city of Lusaka, Zambia. Despite her circumstances, Memory is a well-rounded student who carries herself confidently, has an impressive mastering of the English language and demonstrates drive, passion and a lively spirit.

While in school, Memory receives Rise Against Hunger meals and explains how vital they are for her. For herself and many of the children she attends school with, their daily meals at school are often their only meal of the day. These meals have also had a positive impact on her both physically and mentally.

She openly shares her passion for her nation and community and she hopes to one day be able to do for other children what Family Legacy has done for her. Memory says that without the help of these meals, she would not have been able to stay in school and develop her dream of giving back.
